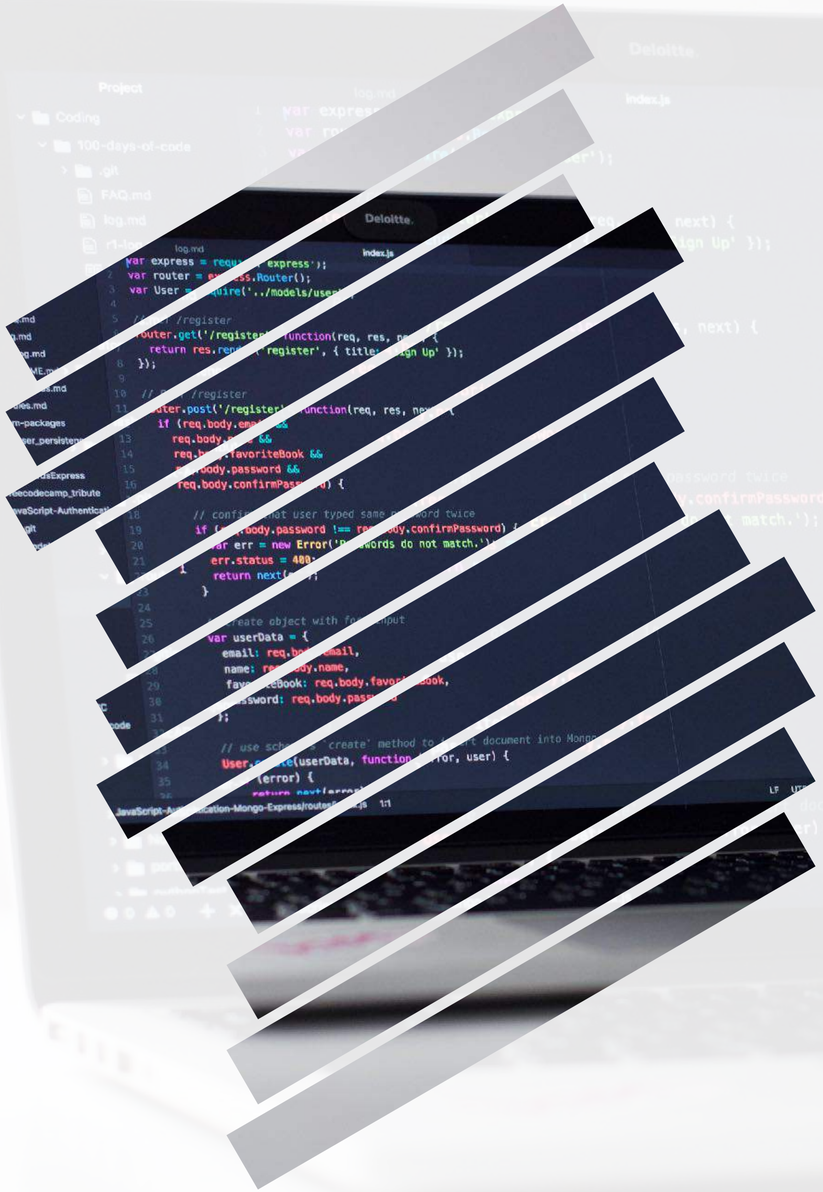
SOFTWARE SOLUTIONS FOR EVERYONE

WHO WE ARE

Established in Bandung, Indonesia on November 20, 2015, our company is a passionate software house specializing in Website, Web and Mobile Application Development, and UI/UX Design. With a dedicated team of 50+ professionals, we've proudly delivered outstanding solutions for 100+ clients across 14 countries. Boasting a portfolio of 200+ successfully executed projects, we continue to drive innovation and excellence in the world of software development.

OUR MISSION

We are dedicated to fulfilling our vision of becoming a reliable world-class IT company. Our mission is to consistently deliver excellence by providing innovative IT solutions that empower businesses to thrive in the digital age.



OUR PROCESS

We blend various methodologies - Waterfall, Scrum, Agile - to flexibly cater to each project's needs. We prioritize responsive communication, on-time delivery, and collaborative client partnerships to ensure exceptional results.

OUR SERVICES

What makes our services unique.

WEBSITE

Website and eCommerce doesn't have to be expensive or complex, but effective. We work with all sorts of clients with a wide range of budgets and requirements.

Technologies
- HTML
- CSS
- JavaScript
- WordPress
- WooCommerce

WEB APPLICATION

We develop web application on a wide range of open sources platform to ensure an effective budget management.

Technologies
- Vue.js / React / AngularJS
- PHP (Laravel / Lumen)
- Node.js (Express / Socket.IO)
- Python (Flask / Fast API)
- Go (Gin / Beego / Go kit)
- .NET (ASP .NET / ASP .NET Core)
- SQL (MySQL / PostgreSQL / Microsoft SQL Server)
- NoSQL (MongoDB / Firebase Realtime Database)

MOBILE APPLICATION

User-friendly mobile application development helps a range of start-ups and enterprises to redefine mobile user experiences.

Technologies
- Android SDK (Java or Kotlin)
- iOS SDK (Objective-C or Swift)
- React Native
- Flutter

TEAM AUGMENTATION

We provides professional talents to help completing software development projects and make the process more efficient.

TIME AND MATERIALS

Engagement model in which the client pays only for time and resources spent on the agile development process.

RESEARCH & DESIGN

We excel at crafting captivating user experiences by combining thorough research with creative interface design.

CLOUD COMPUTING

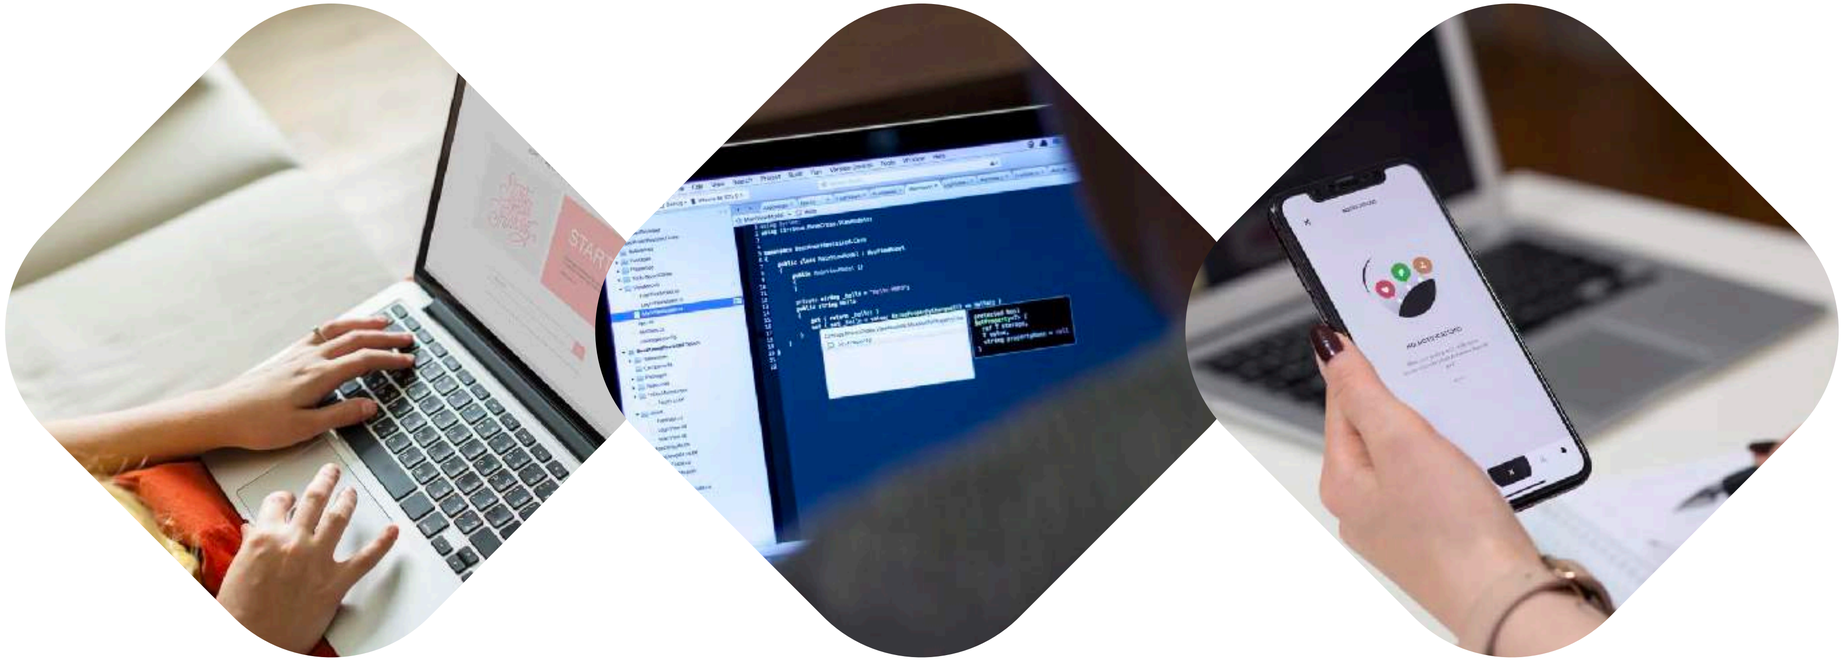
Helping businesses to leverage advanced computing resources without the complexities of managing their own infrastructure.

ADDITIONAL SERVICES

Extra services offered by Vodjo.

OUR CLIENTS

We are very fortunate to have formed an excellent partnership with our clients. We work with all sorts of clients with a wide range of industries and requirements.



OUR WORKS

It is an honour for us to showcase the best of our works.
